## TAG RETENTION TIPS

- 1.** Always make a *NEW* hole
- 2.** Make a precise incision – *NOT* a puncture wound
- 3.** Attach the tag *TOWARD* the head (*see back of card*)
- 4.** Avoid penetrating cartilage and blood vessels (*see back of card*)
- 5.** Always use clean equipment to avoid disease transfer
- 6.** Make sure the button (*on two-piece tags*) is on *BACK* of ear
- 7.** Always use *NEW* tags
- 8.** Avoid using heavy tags
- 9.** Support the ear of newborns when tagging
- 10.** Remove twine from hay bales to minimize snagging
